About me

Java Developer with strong problem-solving skills and hands-on experience in building web applications. Proficient in Java, Spring Boot, and SQL. Familiar with RESTful APIs, Git, and Agile methodologies. Strong team player with good communication and adaptability. Eager to learn and grow in a professional environment.

Education

HCMC University of Technology (HUTECH)

08/2021 - 10/2025 | Bachelor - Software Engineering

Skill

Core Skills

SQL (3 years)

Java (2 years)

Other Skills

UML (2 years)

.NET (< 1 year)

C (< 1 year)

C# (< 1 year)

Cisco (< 1 year)

Flutter (< 1 year)

MongoDB (< 1 year)

NodeJS (< 1 year)

Python (< 1 year)

Soft Skills

- Time management
- Communication
- Teamwork

Work

Experience

08/2025 - 09/2025

IMPLEMENTATION STAFF SUPPORTING USERS | Ho Chi Minh City Digital Transformation Center

Ho Chi Minh City Digital Transformation Center (DXCenter HCMC)

The Digital Transformation Center of Ho Chi Minh City serves as the central hub for implementing the city's digital initiatives. Its responsibilities include developing, integrating, and operating e-government platforms, online public services, SSO systems, and citizen-facing applications. The center drives the digitization of administrative processes, open data, and improved citizen experience, while ensuring stable, secure, and synchronized operations across government agencies and integration with the National Public Service Portal.

PROJECT:

Provided user support for Ho Chi Minh City digital government systems:

- **One-Stop Portal (motcua.tphcm.gov.vn)**: internal administrative procedure management.
- **Document & Workflow Management (qlvb.tphcm.gov.vn)**: electronic document handling and internal task management.

- **1022 Portal (1022.tphcm.gov.vn)**: citizen feedback and issue reporting.

Participated in application development and enhancement to ensure system stability, usability, SSO integration, and data synchronization.

Assisted in deployment, guided users, and resolved inquiries for staff and citizens.

04/2025 - 07/2025

INTERN JAVA DEVELOPER | Delphinus Consulting Co., Ltd.

Delphinus Consulting is a software development company that provides enterprise application solutions for small and medium-sized businesses. I participated as a Java developer intern, contributing to building internal business management tools. My responsibilities included implementing RESTful APIs, writing clean and maintainable code, collaborating with cross-functional teams, and using Git for version control. I also learned Agile workflows and improved my problem-solving and teamwork skills.

PROJECT:

Project: Identity Service

Role: Java Backend Developer Intern

Tech Stack: Java 21, Spring Boot 3.2.x, MySQL, Maven, Docker

Description:

Developed a microservice for user onboarding, role-based access control (RBAC), and authentication. Implemented REST APIs, database integration using MySQL, and Dockerized the service for deployment. Followed clean architecture and used Maven for build automation.

Foreign Language

English : Intermediate

Highlight Project

09/2024 - 04/2025

App Music

Tech Stack:

- **Backend:** Java (Spring Boot) & Node.js (2 separate implementations)
- **Frontend:** Flutter
- **Database:** MySQL
- **Communication:** RESTful APIs

Key Features:

- User Registration, Login, Logout
- Add Song, Find Song
- Search Songs by Lyrics
- Automatically Update Unavailable Songs

Description:

Built a scalable identity and music service with two backend implementations (Java & Node.js), connected to a Flutter frontend via REST APIs. Focused on clean architecture, separation of concerns, and functional completeness.
